Kansas City, KS

## EXPERIENCE

### Full-Stack Web Developer

#### Self-Employed (Freelancer at UpWork)

01/2017 - 01/2018 Location

##### Company Description

- Developed many web applications built in MEAN stack.
- Finished all my projects with a 5-star review from clients and became a "Top Rated" freelancer at UpWork
- Learned a lot about latest web development best practices

### Information Security Analyst

#### RHI Magnesita

01/2016 - 12/2016 Belo Horizonte, Brazil

- Gave global user support on security issues to over 3 thousand users in 4 different continents
- Managed 2 SIEM solutions being the focal point to users and to the manufacturer.
- Helped increase overall Infosec compliance reaching the goal stipulated for the year

### IT Support Summer Intern

#### Newman Regional Health

06/2015 - 07/2015 Emporia, Kansas, USA

- Gave user support to healthcare professionals
- Helped to upgrade and replace over a hundred old machines
- Fixed computers whenever they stopped working

### Full-Stack Web Developer

#### CEFET-MG (Federal Center of Technological Education of Minas Gerais)

Belo Horizonte, Brazil

From 2011~2012 and 2013~2014 (2 years)

- Helped design, develop, test and improve the web-based ERP system used at the University (Java, HTML, CSS, Javascript)
- Implemented features following MVC pattern
- Wrote heavy financial reports in SQL and JasperReports
- Was part of a team using SCRUM framework

### Sharepoint Developer

#### BHS (Belo Horizonte Systems)

2010 - 2011 Belo Horizonte, Brazil

- Helped develop an oil company's intranet on MS SharePoint (C#/.NET)
- Learned about Microsoft's software development lifecycle
- Was part of an agile team
